Oil was first used more than 4000 years ago and was employed to build the towers and walls of Babylon

The earliest known oil wells were drilled in China around 347 AD. Drilled with bits attached to bamboo poles, these wells reached depths of over 800 feet

The earliest mention of Petroleum in the Americas occurred in 1595 in an account of Trinidad Pitch Lake in the Caribbean

In 1816 Rembrandt Peale made headlines when he illuminated a room at his museum with gas lamps. By 1817 his company installed the first gas street lamp in the United States in Baltimore

In 1863 John D Rockefeller formed Standard Oil. Later, through eliminating competition, Standard Oil would come to control nearly all oil production in the US

In 1911 Standard Oil's vice like grip on the American petroleum industry was broken when the Supreme Court ordered the company to be broken up into 34 companies.

In 1917, Shell Oil built the Wood River Refinery. It is capable of refining over 200,000 barrels of crude oil per day

The first Californian well was drilled in 1865. By the 1930's the beaches were dominated by oil fields.

The first tanker truck was invented in 1905 by a company called Anglo-American, a subsidiary of Standard Oil

The first tanker ship was built in 1878 by the Nobel Brothers in Baku Azerbaijan. Unlike previous ships that moved oil in barrels, the Zoroaster was designed with built in tanks

The first offshore oil platforms were built on piers attached to land in 1897. Within 5 years there were over 400 pier wells on the California coastline

The first mobile offshore drilling rig was built in 1954 and named Mr. Charlie. That same year George Bush signed a contract for the first jack up oil rig. George became the President of the United States 45 years later.

## WHY AGED BEEF

Aging beef allows naturally present enzymes to tenderize. Evaporation during aging concentrates flavor leading to a more tender and juicy steak

## WHY USDA CHOICE

The USDA grades beef on several qualities, the most important of which is marbling. Uniformly marbled meat is more tender and flavorful.

George and Margarit Bakan circa 1930's

With the construction of the Wood River Refinery in 1917 bars were soon to follow. George Bakan opened our location and it remained in the Bakan family for decades

Bakan's circa 1940's

April 18th, 1948

A 1950's era Wurlitzer employs patrons to "enjoy little LP album music"
